Design &  
Manufacture

## Checkout Design, Manufacture & Innovation

Retail Associates has a policy of innovation in the design and build of its checkouts. Through our many years experience in the supply of retail capital equipment, we pride ourselves in having the ability to offer checkout designs individually tailored to meet your specification.

In order to meet these needs checkout designs must not only incorporate functionality but more importantly provide a sound working environment for both the operator and customer alike. With this in mind, all our checkout designs adhere to strict ergonomic principles and security solutions.

## Innovative Designs

Choose from our wide range of innovative designs and materials:

- Single Lane Checkouts
- Back to Back Checkouts
- Combination Checkouts
- Kiosk Checkout with Lottery Terminal and Cigarette unit
- Tandem Checkouts
- Express Checkouts

## Key Features

- Available in a variety of formats and with varying belt lengths to optimise productivity
- Can be fitted with a range of standard accessories
- Manufactured in timber, metal or modern hard surface material
- Available in a range of colours/custom finishes
- 12 month parts and labour warranty
- Basic designs can be easily customised to suit individual requirements

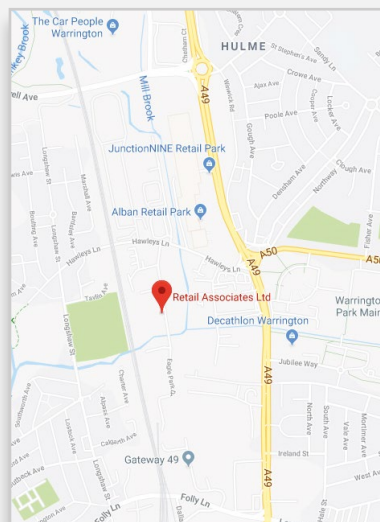

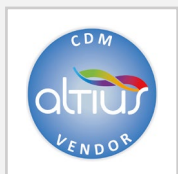

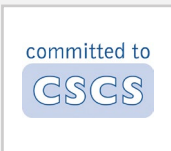

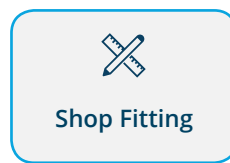

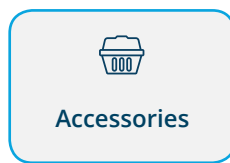

## Single Lane Checkout

Our single lane format is a popular design in modern retail stores. This unit can be sited as a single unit or linked in a tandem configuration. Single lane is available in both left hand and right hand designs to suit store layouts. Back to back layout can provide maximum use of floor space.

## Basket Express, Tandem & Kiosk Checkouts with Secure Cigarette Units

Our Basket Express, Tandem and Kiosk range gives you flexibility regardless of your store size. These units can offer a number of different configuration options.

- Can be fitted with a range of accessories
- Manufactured in timber, metal or modern hard surface material
- Available in a range of colours and finishes
- 12 month parts and labour warranty
- Basic designs can be easily customised to suit individual requirements
- Available in a range of formats with varying belt lengths to optimise productivity
- Configured to accommodate your EPOS components
