

IQM from Retail Associates

IQM from Retail Associates is all about maximising the effective use of your retail selling space. It ensures that you capture all potential sales opportunities that are presented whilst shoppers are a receptive audience when queuing to pay.

The IQM range of products offer a limitless choice of queueing and merchandising solutions. This ensures that it can be applied to any retail environment, large or small. There is an extensive standard range of items but bespoke solutions can be developed to meet specific needs and requirements.

IQM can form single or multi-channel queuing layouts:

- Simple to configure and assemble
- Flexible system that allows for wayfinding
- Creates new branding and POS opportunities
- Increased sales / profits through creating impulse purchase opportunities
- Variety of optional fixtures and fittings
